

IMPROVleadership™

At Slingshot Group, we believe that remarkable teams are built when people love what they do. We've developed the **IMPROVleadership™** coaching model to help leaders build trust, encourage risk-taking, increase collaboration, and promote creativity.

We all want to keep talented people on our team. **IMPROVleadership™** will equip you with the following skills to motivate and develop your team toward loving their work:

STORY MINING

Thoughtfully uncovering a person's story and allowing it to shape the way you lead.

PRECISION PRAISING

Carefully crafting praise to inspire and course-correct your team.

METAPHOR CEMENTING

Using concrete illustrations or metaphors to strengthen teachable points-of-view.

LOBBING FORWARD

Creatively challenging your team to look beyond the day-to-day grind of their jobs and into the future.

GOING NORTH

Using indirect influence to redirect a person's thinking or perspective.

Let us help your team **LOVE THEIR WORK.**
